

Standard Terms & Conditions Health Check

Standard terms and conditions are absolutely crucial in protecting the contractual and financial position of your business. They play a key role in limiting your liability to others, maximising your legal rights and protecting you from insolvency in the supply chain. It is essential to ensure your standard terms and conditions are well-drafted, robust, up to date and meet the needs of your business.

Hawkswell Kilvington's Health Check Service enables you to have your standard terms and conditions reviewed without charge by an experienced construction lawyer. We will then provide you with a written summary of the changes that need to be made to your terms and conditions, along with a no-obligation fixed fee quote for making the necessary amendments.

We are able to review all types of standard terms and conditions, including standard conditions of business, conditions of sub-contract and terms and conditions for the sale or purchase of goods.

What our Health Check Service covers

Our Health Check review considers all aspects of your standard terms and conditions, including:

- Ensuring your payment terms are as advantageous to you as possible.
- Compliance with relevant legislation, including the Construction Act.
- Limitation of liability clauses – are they enforceable?
- Protection from insolvency in the supply chain.
- Rights of termination.
- Indemnity clauses.
- The use of conditions precedent to give you an advantage over the other party.
- The overall quality and consistency of the drafting.

To take advantage of our Health Check Service, please send a copy of your standard terms and conditions to enquiries@hklegal.co.uk.
